

Fellow Clark County Democrats—

We stand together at a critical moment: the COVID-19 pandemic isn't over, thousands of our neighbors are at risk of becoming houseless, Dreamers live under a constant threat of removal from the only home they've known, yet somehow Republicans still pose a very real threat to keeping Nevada blue in 2022.

The work we must undertake won't be easy, but ensuring Democratic wins up and down the ballot next year is work that must be done. I take that work seriously, and I'm humbled by the opportunity to serve you as Chair of the Clark County Democratic Party. Though I run unopposed, I'm asking now for the chance to earn your trust. I promise to be in service to all Clark County Democrats, regardless of our disagreements.

Clark County deserves a vibrant Democratic Party that reflects its status as the second-largest Democratic Committee in Nevada. We have no time to waste in transforming into a Party by and for the People, built from the ground up to champion the candidates and policies that stand for real, progressive change.

No one person can do this on their own, though. We need you to join us; first, by coming out to vote on July 31. Then, we can do the work to strengthen and rebuild the Clark County Democratic Party and keep Nevada blue.

Will you join us?

My email is always open: chris@chrisfornevada.com.

In Unity,

Chris
